EDUCATION

Southern Alberta Institute of Technology

May 2022 - Present | GPA: 3.8/4.0

- Diploma program in Information Technology
- Specializing in Software Development
- Acquired skills in designing, developing, implementing, testing, and maintaining software systems
- Relevant coursework in user experience, web development, software analysis, database programming, and object-oriented programming

EXPERIENCE

Alberta Health Services - IT Intern

Calgary, AB | Jan 2023 - Aug 2023

- Collaborated with fellow fixers, a sizable team of testers, a project coordinator, and a project manager
- Used PowerBI to visualize interactive data pertaining to Epic Launch statistics, iterating over the data upon each successful launch
- Effectively addressed issues related to configuration/build, hardware, printing, and consumables

PROJECTS

Personal Portfolio - ntns.me

Front-End Development | JavaScript, CSS, React, Next.js

- Designed and developed the front-end of my personal portfolio website using HTML, CSS, and JavaScript.
- Built with React, Tailwind frameworks, and Shadow, Radix components to implement a consistent design system.
- Deployed using Next.js and hosted on Vercel.
